

# **FORUM8** 3D Visual Interactive Simulation Specialists

On October 14-18 the international ITS community will gather in Tokyo for the ITS World Congress, which is being held in Japan for the first time in nine years. This multi-faceted showcase for cutting-edge ITS technologies will be a fitting event to celebrate the 20th ITS World Congress. Around 10,000 participants are expected from some 60 countries and regions.

On this occasion **Forum8** and their partners from the **BMIA** team will present the latest innovations in its award winning product **G'Val**, the Interactive 3D VR Simulation system for Highway & Tunnel operator training. New innovations include:

*A new control interface based on an interactive touch screen tablet allowing the trainer to control the environmental conditions, change screen views, choice of vehicle, FLU display, etc ...*

*The graphic scenario editor which allows the trainer to prepare complex events and scenarios via a simple graphical and user-friendly interface*
