

**DKS Associates**  
TRANSPORTATION SOLUTIONS

November 2012

**FORUM8 is very pleased to announce DKS Associates of Portland, Oregon have invested in VR-Design Studio, Forum8's award winning 3D Visual Interactive Simulation software.**

**DKS Associates** has been operating since 1979 and their background in concept development, analysis, technology, design, construction, operations, and management has helped to guide a holistic approach to many transportation projects throughout the US.

**DKS Associates** have offices across the United States and in 1990 opened their first non-California office in Portland, Oregon.

Early projects included:

- City of Portland Parking Policy for Older and Historic Buildings
- Traffic Signal Timing on Canyon Road/Beaverton Hillsdale Highway
- Transportation System Plan for the City of Corvallis
- Transportation Master Plan/U-Pass for University of Washington
- Portland Region ITS Deployment Plan

**DKS Associates** chose to invest in **VR-Design Studio** due to it being the ideal solution for urban and transport design & planning projects, either on its own or linked with third-party engineering, 3D design and micro-simulation tools.

The software is used extensively to facilitate stakeholder consultation and to help build consensus within communities.

It is also used in a variety of human-factors research, in conjunction with a wide range of drive simulators, as well as for pedestrian and rail based VR simulation projects.

**FORUM8's** state-of-the-art 3D software **VR-Design Studio** (formerly UC-win/Road) is at the forefront of modern Interactive 3D Simulation & Modeling technology.
