

FORUM8 at Modelling World 2012 (London, UK)

FORUM8 will be showcasing its state-of-the-art Interactive 3D Visual Simulation & Modelling software for transport & traffic professionals at this year's Modelling World.

VR-Design Studio (formally UC-win/Road) allows users to build highly interactive and fully customisable 3D VR environments including buildings, roads and street furniture in a cost-effective and time-efficient manner.

This award winning software also enables users to visualise and interact with data produced from a range of third party transportation & civil engineering products from companies such as: Autodesk, Bentley, PTV, SIAS, OmniTRANS, TRL and Legion etc...

Modelling World 2012 will be held at the Kia Oval in London on Wednesday the 11th and Thursday the 12th of July 2012. The exhibition will be held in the England room – accessed via the Alec Stewart Gate.

For more information, please go to www.forum8.com/events.asp.

Look forward to seeing you there...
