

VR-Design Studio Price List Changes

Please note the recent changes to the way FORUM8 charges for software Maintenance & Technical Support.

The latest VR-Design Studio (*formerly known as UC-win/Road*) software licence price list now includes, as standard, the first year's software maintenance and technical support.

Subsequent year's software maintenance and technical support can be purchased at the time of the initial software order at a discount, or can be purchased at the end of year one, two etc... See the current Features & Prices matrix.

If a software maintenance contract is not maintained year on year then a new licence may need to be purchased.

For example; if a customer wishes to renew a maintenance contract that has been expired for less than 6 months then the cost will be 50% of the particular software licence list price. If the customer's software licence(s) has been out of maintenance contract for more than 6 months then the cost will be 70% of the list price of the particular licence concerned.

The maintenance and technical support fees for VR-Design Studio plug-ins and other software licences are shown below.

Software with a list price of over \$4,000 will command a renewal fee based on 15% of list price.

The annual renewal fee for Software with a list price of less than \$4,000 is based on a sliding scale and is discounted if multiple annual fees are purchased – see below...

Product Price	1 st Year Maintenance Support Contract	Maintenance Support Renewal (1 Year)	Maintenance Support Renewal (2 Years)	Maintenance Support Renewal (3 Years)
